

SQUISH 'EM™

To Set Up — Commodore 64:

Set up your computer system as instructed in your owner's manual. Plug your joystick into controller port #1. Insert the Squish 'Em disk into the disk drive. Type **LOAD "SIRIUS", 8**. Press **RETURN**. When the screen reads **READY**, type **RUN**. Press the f5 key to select a play level, then press f3 or joystick button to start the game.

Keyboard Control: Press the **A** key to climb, the  key to move left, and the  key to move right. Press the **Space Bar** to raise your man's legs. If you are using the joystick, the keyboard will be ignored.
