

# SKY BLAZER

## VIC-20 CARTRIDGE INSTRUCTIONS

### GETTING STARTED:

With computer turned off, insert cartridge, label side up, into the cartridge slot at the back of your VIC-20 computer. Turn on TV or monitor. Turn on computer.

**IMPORTANT: NEVER INSERT OR REMOVE A CARTRIDGE WHILE COMPUTER IS ON. DOING SO MAY DAMAGE YOUR COMPUTER.**

### PLAYING THE GAME:

Press joystick button to start play. Use joystick to move your jet up/down/left/right on the screen. Your plane will drop bombs when flying at a low altitude; otherwise it will fire pulse cannons. To fire, press your joystick button.

You will have three planes with which to carry out five missions. Each plane has a fuel capacity of 3000 gallons and a bomb load of 30 bombs. If you need to resupply your jet with fuel or bombs you must catch the cargo parachute dropped from a supply plane which flies over periodically.

### YOUR MISSIONS ARE:

- 1. Destroy the radar.** The radar dish doesn't appear right away so use the time to learn to fly your plane.
- 2. Waste the tank.** It's faster than you are, and you'll have to figure out something tricky to get rid of it.
- 3. Bomb the ICBM.** Avoid the helicopters and balloon bombs. The ICBM looks like a flat, orange and blue mushroom. It doesn't appear very often.
- 4. Demolish the tank again.** Watch out for this one — it fires heat-seeking missiles.
- 5. Wipe out Bungeling headquarters.** Keep your eyes open since the headquarters are well defended. They look like a blue and green air traffic control tower.

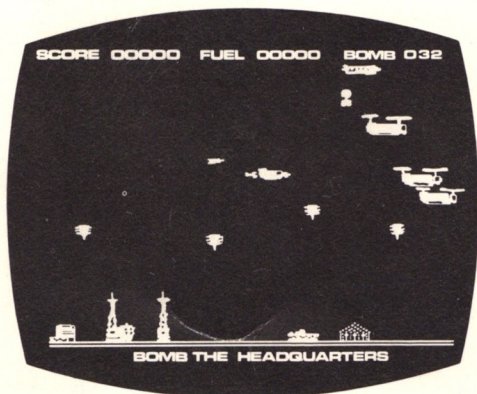

### SCORING:

40 points . . . . .	Scrolling ground objects and buildings
-20 . . . . .	Trees, cacti
80 . . . . .	Enemy aircraft
20 . . . . .	Balloon bombs
100 . . . . .	Catching fuel
120 . . . . .	Heat-seeking missiles
300 . . . . .	Bonus for all targets but H.Q.
1500 . . . . .	Bonus for H.Q.
???	Victory bonus for completing all five levels. The more planes you have left, and the more quickly you have accomplished your mission, the higher the bonus.

### SPECIAL KEYS:

RUN/STOP	Pauses game (press any key to resume)
RESTORE	Returns to demo
Cursor Keys	Centers screen image (during game play)
